CONTENTS.

	PAGE
Some Notable Wartime Oil Fires. V. J. Wilmoth	1
Clay Research and Oil Development Problems. J. C. Griffiths	18
The Development and Lubrication of the Automotive Hypoid Gear. F. F. Musgrave	32
Annual Report of Council, 1944	45
Annual General Meeting	55
Investigation of Piston-Ring Sticking in High-Duty Aero-Engines. A. Lahiri and E. Mikolajewski	59
Mechanism of Action of Organic Chlorine and Sulphur Compounds in Extreme-Pressure Lubricants. C. F. Prutton, David Turnbull, and George Dlouhy	90
Some Problems Encountered During Well Shooting Operations in the Nottinghamshire Oilfields. J. F. Waters	119
Molecular Weights of Viscous Hydrocarbon Oils : Correlation of Density with Viscosities. Alfred E. Hirschler.	133
The Blending Octane Numbers of 2 : 5-Dimethylfuran. Hugh B. Nisbet.	162
Process Development and Production of Isohexane and Isoheptane as Aviation Fuel Components. S. F. Birch, P. Docksey, and J. H. Dove	167
The Mechanical Testing of Extreme Pressure Lubricants (with Special Reference to Hypoid Oils). H. L. West	206
Metals and Alloys in the Petroleum Industry. John H. Wilson	230
Obituary : **John H. Wilson.**	240
First Cadman Memorial Lecture. Sir William Fraser	241
Petroleum in Wartime. F. H. Garner	256
The Char Value of Kerosine. F. W. H. Matthews and W. H. Thomas	269
Third List of Definitions. Standardization Sub-Committee No. 11	289
Annual General Meeting	292
Developments in Fluid Catalytic Cracking. J. F. Walter	295
The Development of Improved Turbine Oils. C. N. Smith and G. H. S. Snyder	313
Mineral Oil Films in Relation to Mosquito Control. A. Crossfield and G. F. Hazzard	323
The Determination of Organic Peroxides in Hydrocarbons. E. M. Tanner and T. F. Brown	341
Obituary : **William Sutton**	351
Edward Hubert Cunningham Craig	351
General Discussion on Transformer Oils :	
The Contribution of the E.R.A. to International Research on Transformer Oils. P. W. L. Gossling and A. C. Michie	356
Some Developments in the Refining of Transformer Oils. J. C. Wood-Mallock	365
A Review of the Mechanism of the Oxidation of Liquid Hydrocarbons. Philip George and Alan Robertson	382
Oxidation and Anti-Oxidation. E. A. Evans	392
The Influence of Structure on the Oxidation Reactivity of Hydrocarbons. Philip George and Alan Robertson.	400
The Sludge Test for Transformer Oils. C. H. Barton	408

PAGE

Oxidation Tests for Transformer Oil. A. A. Pollitt 414

Sludging Value of Transformer Oil. Influence of Condenser Water Temperature. P. W. L. Gossling and J. Romney. 424

The Application of Variance Analysis to Some Problems of Petroleum Technology. H. M. Davies 465

The Geology of the Guayaquil Estuary, Ecuador. George Sheppard. . . . 492

On the Course of the Reaction at 100° C. in the System Aromatic-free Mineral Oil–Oxygen. D. J. W. Kreulen 515

On the Course of the Reaction at 100° C. in the Systems Xylene–Oxygen and Aromatic-free Mineral Oil–Xylene–Oxygen. D. J. W. Kreulen . . . 525

Gasoline Loss Control and Molecular Weight Determinations. H. G. Koefoed . 529

Some Observations on the Development of Extreme Pressure (E.P.) Properties by Chlorine and Sulphur Additives in Mineral Oil, as Assessed by the Four Ball Machine. W. Davey 575

Researches on Asphaltenes. Part II. Radical Reactions. F. J. Nellensteyn and J. Dorleyn 582

The Application of Spreading Measurements on Oil Tests. N. E. M. Hagethorn and F. H. Stieltjes 587

Fractional Distillation of Ternary Mixtures. Part II. A. J. V. Underwood . 598

Fractional Distillation of Multi-Component Mixtures—Calculation of Minimum Reflex Ratio. A. J. V. Underwood 614

The Tendency to Smoke of Organic Substances on Burning. Part I. A. E. Clarke, T. G. Hunter, and F. H. Garner 627

The Tendency to Smoke of Organic Substances on Burning. Part II. Smoke Production and Burning Characteristics of Hydrocarbon Gels. F. H. Garner, T. G. Hunter, and A. E. Clarke 643

On the Course of the Reaction at 100° C. in the System Paraffin–Oxygen. D. J. W. Kreulen 656

Experiments on the Production of Toluene from Coal Tar Products and other Sources. C. M. Cawley, J. H. G. Carlile, H. E. Newell, and F. E. T. Kingman 660

Obituary: **John Falconer Taylor** 684

Review of the Chemical Structure of Fuels and their Detonation in Engines. A. G. Mazurkiewicz and V. G. Oberholzer 685

The Vaporization of Fuels for Gas Turbines. Part I. The Bubble-Points and Dew-Points of Liquid Hydrocarbon Fuels. B. P. Mullins. 703

Obituary: **Frederick Edward Cherry** 738
